

**SMART. SIMPLE. SAFE.**

**NEW TABLE TOP DISPENSING SYSTEM**

The oneSAFE™ design makes it easy to grab only one glove at a time. Because the system allows users to touch the glove only at the cuff, the glove's palm and fingers won't come into contact with the user's bare hands. This new dispensing system provides the modularity and operational flexibility needed on fast-paced operations.

**FIRST-IN-CLASS DISPENSER**

High impact plastic for great durability. Hinged for ease of change outs and suction cups for secure placement and high performance.

**FOODHANDLER'S oneSAFE™  
 NITRILE & VINYL GLOVES**

are a first-of-its-kind innovation in the food industry. Our new glove dispensing system enables you to provide a higher level of safety to your foodservice operation. Its ease of use can help significantly reduce the risk of cross-contamination, reduce waste, and decrease your operation's environmental footprint. This new table top system is available in vinyl and nitrile with mini-packs.
